

KIDS PLUS PATIENT PORTAL REGISTRATION

The **Kids Plus Patient Portal** is a safe, secure web site that allows you to see and print many of your child’s medical records, including growth charts, immunization records, lab results, visit notes, and prescriptions.

You can access the **Kids Plus Patient Portal** 24/7/365 on your computer, tablet, or smart phone, so you always have your very own Kids Plus virtual office at your fingertips.

Once your account is created, you’ll receive an email with a link to the Portal and a temporary password that will be active for 1 week.

You will need to sign into the Patient Portal to complete your account set-up. Be sure to verify that your name appears correctly, and that the names of the patients you’ve listed appear on the screen.

* Please know that when a patient turns 18, by law, the record for that patient automatically becomes private. You can still send messages about the patient, but you can not view information in the chart. After the patient turns 18, he or she may grant a parent or guardian access to the chart by completing and signing a release form. This permission can be revoked at any time at the request of the patient, or at the discretion of the provider.

To sign up for a **Kids Plus Patient Portal** account, please fill out the information below.
